Republic of Indonesia,**

H. PRABOWO SUBIANTO*

* in confirmation

Foreword from The President

Distinguished Colleagues and Honoured Stakeholders,

It is with great pride and deep appreciation that I welcome you on behalf of the Ikatan Akuntan Indonesia (Institute of Indonesia Chartered Accountants/IAI) to this important gathering—our International Seminar and the IFAC Connect ASIAPAC 2025, held as part of the commemoration of IAI's 68th Anniversary.

We are especially honoured to welcome distinguished participants of IFAC Connect—prominent leaders and key figures of the global accounting profession—representing nearly 100 jurisdictions from IFAC member organizations around the world. Their presence reflects the strength of our global community and reaffirms the critical role of international collaboration in shaping a resilient, transparent, and sustainable future for the profession.

IFAC Connect is an annual series of invitation-only interactive events convened by the International Federation of Accountants (IFAC), the global organization for the accountancy profession. These events focus on global agendas tailored to the priorities and interests of each region, and bring together professional accountancy organizations, standard setters, regulators, professional firms, and stakeholders from business and investor communities to advance high-quality corporate reporting, governance, and responsible business practices. We are deeply proud that the Jakarta edition of IFAC Connect forms an integral part of IAI's 68th Anniversary celebration.

Since its establishment on December 23rd, 1957, IAI has served as the cornerstone of the accounting profession in Indonesia—committed to upholding professionalism, public trust, and the continuous advancement of accounting standards and education. Over the past six decades, we have not only strengthened the profession nationally but also contributed to the development of financial infrastructure that supports sustainable economic growth.

IAI's global engagement is a testament to our long-standing commitment to international collaboration. We are proud to be a founding member of the International Federation of Accountants (IFAC), a founding body of the ASEAN Federation of Accountants (AFA), and an associate member of Chartered Accountants Worldwide (CAW). These affiliations demonstrate our dedication to promoting global consistency in standards, ethical leadership, and professional mobility for Indonesian accountants.

In today's world, the accounting profession must go beyond technical excellence—it must also be a driver of sustainability and inclusive prosperity. IAI actively supports the adoption of sustainability disclosure standards and the integration of ESG factors into financial and non-financial reporting. Through advocacy, training, and standard-setting, IAI empowers professionals to be at the forefront of sustainability transformation in both public and private sectors.

At the national level, IAI continues to play a pivotal role in supporting Indonesia's capital markets and investment ecosystem. Our standards and professional development programs contribute to enhancing the reliability of financial information, improving corporate governance, and supporting investor confidence. IAI also collaborates closely with regulators and stakeholders to strengthen financial transparency and accountability, particularly in response to the growing demands for integrated and sustainable business reporting.

This event is not only a commemoration, but also a platform to strengthen our global linkages, renew our professional mission, and inspire future action. In this spirit, we respectfully call for the support and active participation of all stakeholders—government, regulators, industry, academia, and fellow professional bodies. Your collaboration is essential to the success of this event, and more importantly, to the continued relevance and impact of our profession in the years ahead.

Let us work together to build a profession that is globally respected, nationally impactful, and deeply committed to shaping a sustainable and equitable future.

Thank you.

Ikatan Akuntan Indonesia

Dr. Ardan Adiperdana, CA

President

Background

IAI 68th Anniversary

IAI commemorates its 68th anniversary in 2025, a significant milestone in age and in legacy. This celebration arrives at a time when the global economy is facing heightened uncertainty, marked by geopolitical tensions, financial market volatility, climate-related disruptions, and the transformative power of technology. These challenges underscore the urgent need for strong institutions, sound governance, and trusted professionals. The accounting profession stands at the heart of this global recalibration.

Founded in 23 December 1957, IAI has grown from a national professional body into an institution of regional and international significance. It plays a central role in developing accounting standards, promoting ethics and professionalism, and nurturing talent that meets both local and global expectations. The institute's history is intertwined with Indonesia's broader journey of economic development, institutional strengthening, and integration into the global marketplace.

Today, the role of accountants has expanded far beyond traditional bookkeeping and compliance. In a world where trust is currency, and where data is increasingly abundant yet ambiguous, accountants are called to exercise professional judgment, uphold transparency, and provide assurance in complex financial and non-financial matters.

IAI has consistently responded to this evolution by aligning itself with international standards, actively engaging in global platforms and leading national efforts in areas such as sustainability reporting, public sector reform, and digital transformation. These efforts are especially critical in today's climate, where both governments and corporations are expected to demonstrate not just financial performance, but social and environmental responsibility.

As Indonesia sets its sights on "Indonesia Emas 2045"—its centennial vision of becoming a high-income, just, and sustainable nation—the accounting profession must remain central to this ambition. Accountants will be instrumental in mobilizing investment, ensuring fiscal responsibility, managing sustainability disclosures, and building public trust. In a world of fragmentation and flux, IAI's enduring presence is a reminder of the power of professional institutions to anchor stability, cultivate competence, and inspire transformation.

IFAC Connect ASIAPAC 2025

IAI is proud to serve as the host of IFAC Connect ASIAPAC 2025, which is expected to be attended by around 100 delegates from various countries across the region and beyond. This year's event is held in Jakarta as part of the celebration of the 68th Anniversary of IAI, underscoring Indonesia's strong commitment to global collaboration and the advancement of the accounting profession in response to increasingly complex challenges and opportunities.

IFAC Connect is an annual series of invitation-only interactive events focused on advancing a global agenda, while being tailored to the specific priorities and interests of each region and local audience. These events bring together professional bodies, professional services firms, standard setters, regulators, and the business and investor communities to promote high-quality and decision-useful corporate reporting, governance, and business practices in the face of emerging risks and shifting expectations.

The event is convened by IFAC, the global organization for the accountancy profession. IFAC represents over 180 professional accountancy organizations in more than 135 jurisdictions, and serves the public interest by supporting the development of strong, sustainable, and trusted professions worldwide.

Objectives

1

To reaffirm and elevate the strategic leadership of the accounting profession in navigating the digital era, advancing sustainability, and supporting national and global priorities.

2

To strengthen international dialogue and stakeholder collaboration through meaningful exchange of ideas, experiences, and innovations shaping the future of accountancy.

3

To celebrate IAI's 68-year legacy while enriching members' perspectives with global best practices and positioning Indonesian accountants for greater global relevance.

- Indonesia Sustainability Oversight Standard Board
- International Public Sector Accounting Standards Board (IPSASB)
- World Bank
- DCI Indonesia
- Big Consulting Firms
- Risk and Sustainability Expert

Agenda

Presidential Keynote Speech: Trust and Accountability for Indonesia's Golden Vision: Navigating Global Turbulence Towards Sustainable Growth and Prosperity

In line with the national agenda to realize Indonesia Emas 2045, a strategic message is expected to underscore the government's unwavering commitment to inclusive and sustainable development. Anchored in Asta Cita—the eight-priority pillars of national progress—this commitment is reflected in key initiatives such as downstream industrialization, food and energy security, digital transformation, education reform, and the transition to a green economy. These efforts aim to strengthen Indonesia's economic resilience, enhance social equity, and ensure long-term competitiveness amid global uncertainties, including geopolitical tensions, climate risks, and technological disruption. Within this broader vision, particular attention is also given to the important role of a strong and ethical accounting profession in reinforcing institutional integrity, upholding public trust, and supporting transparency and accountability across sectors. The message reaffirms that trust-based governance and responsible leadership are essential to navigating turbulence and building a just, prosperous, and competitive future for all Indonesians.

Opening Ceremony

The seminar is expected to begin with a formal opening led by the **President of the Republic of Indonesia*** and the **President of IAI**, accompanied by the **Chair of the IAI Advisory Board** and the **Chair of the IAI Supervisory Board**. This ceremonial session will include a symbolic launch, a commemorative video highlighting IAI's 68-year journey, and opening remarks underscoring the role of the accounting profession in national transformation. It marks the formal start of the international seminar, blending institutional pride with a clear vision for the profession's future trajectory.

Keynote Speech

KEYNOTE SPEECH 1

"Strengthening GRC: Global Perspective on Building Robust and Sustainable Financial Ecosystems"

This keynote speech is expected to be delivered by the **Chairman of Indonesia's Financial Services Authority (OJK)** and will highlight the importance of strengthening **Governance, Risk, and Compliance (GRC)** as a pillar of financial system integrity. Drawing from global insights and national priorities, the Chairman can explore how robust GRC practices are essential to building a resilient, transparent, and inclusive financial ecosystem. The speech can also emphasize OJK's strategic role in fostering sustainable growth and investor confidence amidst an increasingly complex and interconnected financial landscape.

KEYNOTE SPEECH 2

"Reinforcing Indonesia's Payment Ecosystem through Digital Innovation in the Age of Global Disruption"

In an era marked by global disruption—ranging from geopolitical tensions to technological upheaval—Indonesia's payment ecosystem must evolve from a foundation of trust toward a future defined by resilience, innovation, and inclusivity. This speech expected to delivered by **the Governor of Bank Indonesia***, aims to explore how digital transformation can reinforce the integrity, efficiency, and interoperability of the national payment system, while addressing challenges related to governance, consumer protection, and systemic risk.

Panel Session

PANEL DISCUSSION 1:

“Reinventing Business Strategy: The Accountant Profession as Strategic Advisor & Guardian of Trust in Agile & Dynamic Business Environment”

In today’s rapidly changing business environment, organizations must continuously adapt their strategies to remain competitive and resilient. Accountants are increasingly expected to go beyond traditional roles and act as strategic advisors, offering insights that shape decision-making and long-term value creation. At the same time, they serve as guardians of trust, ensuring transparency, accountability, and ethical integrity amid complexity and uncertainty.

PANEL DISCUSSION 2:

“Beyond Reporting: Proactive Sustainability Risk Management and Compliance for Impactful Investment”

As sustainability becomes a core concern for investors and stakeholders, companies are expected to go beyond disclosure and take a proactive role in managing sustainability-related risks. This panel will explore how businesses can integrate sustainability risk management and regulatory compliance into strategic planning to build long-term resilience and credibility. By shifting from reactive reporting to impact-driven practices, organizations can attract more meaningful investment and create sustained value for society.

PANEL DISCUSSION 3:

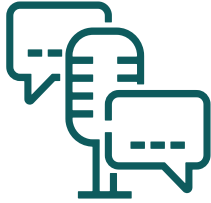

“Reinventing Public Sector Practices: Enhancing Efficiency through Public Sector Management Innovation”

Public sector institutions are under growing pressure to deliver better services with greater efficiency, transparency, and accountability. This panel will examine how **innovation in public sector management**—including digital transformation, performance-based budgeting, and agile governance—can drive systemic improvements. By reinventing traditional practices, governments can enhance service delivery, optimize resource use, and build public trust in a rapidly evolving environment.

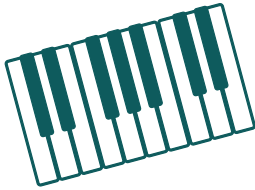

Talkshow with **Otto Toto Sugiri***, Founder of Datacenter Indonesia

Leading the Digital Leap: “Trust, Innovation, and Infrastructure for Indonesia’s Future”

In today’s fast-evolving digital landscape, resilient infrastructure and trustworthy leadership are the foundation for sustainable economic transformation. This talk show features Otto Toto Sugiri, a visionary leader and pioneer in Indonesia’s data center industry, to explore the critical role of digital infrastructure in shaping Indonesia’s future. As the founder and CEO of DCI Indonesia, his journey reflects how bold innovation, long-term thinking, and integrity can unlock national competitiveness in the global digital economy. The session will offer real-world insights into building a trusted digital ecosystem, navigating local and global challenges, and inspiring the next generation of tech leaders. The talk show will be hosted by Virgie Baker, known for her dynamic presence and ability to bring out meaningful dialogue in high-level conversations.

Dinner IAI 68th Anniversary & IFAC Connect Delegate Welcoming Dinner

Hosted in a Grand Ballroom Fairmont Jakarta, the dinner unites seminar delegates, IAI members, and IFAC Connect attendees for an evening of cultural immersion and networking. The evening opens with a vibrant showcase of traditional Indonesian dances, offering guests a glimpse into the archipelago’s rich and diverse cultural heritage. The renowned Angklung Saung Udjo troupe will perform an interactive angklung ensemble, inviting guests to play the bamboo instruments together—symbolizing harmony and collaboration. The program includes a brief tribute to IAI’s milestones, presentation of appreciation plaques to keynote speakers, and ample time for informal dialogue that strengthens both domestic and international professional networks.

IKATAN AKUNTAN INDONESIA

Institute of Indonesia Chartered Accountants

- 1 Philosophy of the circle in the IAI symbol has the meaning of whole, unification, togetherness, and sustainability.
- 2 The circle shape shows IAI as a unifying forum for all Indonesian accountants.
- 3 IAI's writing in the middle of the circle reflects a strong and dignified accounting profession.
- 4 The blue colour in the circle and around the IAI title reflects the professional integrity of the accountant.
- 5 The red colour in IAI title reflects the accountability and credibility of Indonesian accountants.

About IAI

The Institute of Indonesia Chartered Accountants or Ikatan Akuntan Indonesia (IAI) is the recognized Professional Accountancy Organization (PAO) in Indonesia. Established on December 23, 1957, IAI continues to serve and develop the accountancy profession in the country through among others, establishment of the Chartered Accountant (CA) Indonesia qualification and other professional accountancy certifications, continuous education and training, and standard-setting activities. IAI is home to more than 33,000 Indonesian accountants from different backgrounds; public accountants, educators, private (management) and public (government) sector accountants, tax, and forensic accountants. The Institute is recognized as a co-founding member of both the ASEAN Federation of Accountants (AFA) and the International Federation of Accountants (IFAC). IAI also an Associate Member of the Chartered Accountants Worldwide (CAW), reflect it's global recognition for the Chartered Accountant (CA) Indonesia holders. IAI is committed to implement IFAC's standards as the best practice in improving the quality of the accountancy profession in Indonesia.

Chartered Accountant

IAI ensures the professionalism of Indonesian accountants through the Chartered Accountant (CA) certification process.

PATHWAY INDONESIA

Specialized Certifications

IAI also ensures the professionalism of individuals with specific competencies through dedicated specialized certification programs.

Sharia Accounting Certification Examination (USAS)

The Sharia Accounting Certification Examination (USAS) is IAI's contribution to strengthening the national sharia economy by enhancing the competencies of professionals in preparing financial reports for sharia-based transactions. USAS is part of IAI's strategy to advance sharia accounting knowledge and expertise in response to the evolving landscape and challenges of the sharia industry in Indonesia.

The USAS is structured in three levels: Elementary, Intermediate, and Advanced.

Financial Accounting Standards Certification Examination (USPSAK)

IAI launched the USPSAK (Financial Accounting Standards Certification Examination) to meet the demand for qualified human capital in preparing financial reports based on Indonesian Financial Accounting Standards (PSAK). Successful participants are awarded the designation Certified PSAK (CPSAK) and are required to maintain their competencies through Continuing Professional Education (CPE).

Government Accounting Certifications: US-CGAA & US-CGAE

The former Government Accounting Expert Certification (USAAP) has evolved into two certifications:

Certified Government Accounting Associate (US-CGAA) & Certified Government Expert (US-CGAE)

The US-CGAE is divided into Level 1 and Level 2 and applies to both central and local government contexts. These certifications aim to enhance the competencies of government accountants in financial reporting across all levels of government.

Certificate in Accounting, Finance & Business (CAFB)

The Certificate in Accounting, Finance & Business (CAFB) was developed by IAI as the foundational level for the Chartered Accountant (CA) Indonesia designation. CAFB aligns with global standards and best practices. With CAFB, IAI now offers a complete pathway from foundation to professional certification.

Strategic Plan for the Institute of Indonesia Chartered Accountants

FOR THE PERIOD 2023-2028

IAI IS GROWING, STRONGER

IKATAN AKUNTAN INDONESIA
Institute of Indonesia Chartered Accountants

LANDASAN PENYUSUNAN

THE PURPOSE OF IAI ESTABLISHMENT

1. Guiding the development of accounting and enhancing the quality of accountant education.
2. Enhancing the quality of accountants' work

IAI'S VISION:

To be the most advanced professional organization in developing knowledge and accountancy practice, public and business management that focused on ethics and social responsibility, and environment, nationwide and internally.

IAI'S MISSION

1. To maintain the integrity, commitment, and competence of members in the development of business management and public which are oriented to ethics, responsibility and living environment;
2. To develop knowledge and practice of business, finance, attestation, non-attestation, and accounting for public; and
3. To actively participate in realizing good governance through valid organizational efforts and in national and international perspectives.

Evaluation of Initiative 6.1 & IAI Accumulation

To evaluate the realization of the program of IAI National Council period 2018-2022 and IAI's achievement.

Five trends affecting the economy and the accounting profession:

1. Friction in the global economy
2. The increasing importance of trust in the public and private sectors
3. Increased global focus on sustainability
4. Changes to future jobs and education
5. Ubiquities of technology

UNITE TOGETHER OPPORTUNITIES, AHEAD

NEXT 4 STRATEGIC

NEXT 1

Strengthening the transformation of the accounting profession through increasing the quantity and quality of Indonesian accountants who have competence, credibility, integrity and comply with regulations, codes of ethics and professional standards.

Target:

1. Improving the quality of accounting education.
2. The growth of the accounting profession through increasing the number of IAI members.
3. Increasing the quantity and quality of professional accountant certification examinations and IAI special skills.
4. Develop and strengthen the competence and expertise of IAI members.
5. Increased recognition of the accounting profession's value proposition on an ongoing basis.
6. Improvement of membership services.
7. Increasing compliance of IAI members with regulations, code of ethics and professional standards.

NEXT 2

Increasing public confidence in the accounting profession as a leader in the development of financial ecosystems and sustainability.

Target:

1. Increasing public trust in the accounting profession through updating the code of ethics and professional standards.
2. Strengthening the financial and sustainability reporting ecosystem through the adoption and implementation of international standards.

NEXT 3

Strengthening legal protection and professional practice of accountants in various sectors in the era of sustainability.

Target:

1. Strengthening legal protection and recognition of the accounting profession in various regulations.
2. Development of professional education practice of accountants, public sector accountants, tax accountants, sharia accountants, practicing accountants, and business sector accountants.

NEXT 4

Improving IAI organizational governance and expanding cooperation with accounting profession stakeholders.

Target:

1. Strengthening organizational governance.
2. Sustainability of funding for organizational development.
3. Improvement and expansion of cooperation with stakeholders in the accounting profession.
4. Improved communication with IAI constituents to enhance IAI's recognition and reputation.
5. Information Technology (IT) transformation in organizational management.

RISK MITIGATION

Strategic Risk

- Failure to maintain relevance and activeness in serving and protecting the public interest.
- Failure to identify, set priorities and take action to meet the expectations of members, the public and key stakeholders of the profession.
- Loss of public trust and key stakeholders in the preparation of professional standards and implementation of professional practice.
- Regulatory fragmentation and inconsistency.
- Organizational solidity.

Operation Risk

- Funding for organizational development.
- Loss of IAI intellectual property rights.
- Synchronization and active management in realizing the work program.
- Number and qualifications of IAI Executive Management in head office and region.
- Development of information technology.

R IAI
